

Collateralize Your Flux Node

Follow these simple steps to collateralize your Flux node and start earning rewards quickly and easily.

1) Download Zelcore Wallet

- Go to Zelcore.io and download the Zelcore wallet.
- Install and create an account.

2) Send the Required Collateral

- In Zelcore, go to Receive and get your FLUX address. **Transfer the amount of Flux to the corresponding Flux address you want to set up:**
- Cumulus: 1,000 FLUX
- Nimbus: 12,500 FLUX
- Stratus: 40,000 FLUX

3) Record Your Flux Node Information

Enter Into Terra Hosting Flux Node Information Form (Sent After Payment)

- Collateral TX ID
- Identity Key
- Output (either 0 or 1)
- Kadena (KDA) Address
- Flux ID

4) Wait for Confirmations

- Wait for 100 confirmations on the blockchain for your collateral. (May take 2-4 hours)

5) Deploy Your Node & Start Earning

- After email confirmation of Node creation, log in to the Flux Dashboard or FluxOS.
- Edit your Flux Node IP Address to 0.0.0.0
- After the benchmarks and confirmations are complete, start your node from the Flux Dashboard or FluxOS.
